READING SESSION

Different Bears

Panda bears and polar bears are both bears,

Panda bears eat bamboo leaves and stems.

They eat plants.

But polar bears eat whales and seals.

They eat meat.

Panda bears are white and black.

Their fur is very thin.

Panda bears live in warm places.

Thin fur doesn't help polar bears.

Polar bears need thick fur.

Polar bears live in the ice and snow.

They have thick fur.

It helps them stay warm.

It is white like snow.

They are very different.

They are both cute.

Which one do you like?
