UNIT 3: Earth's Travel

# Earth's Travel

## Let's Check!

1. What are the keywords?
2. What is the main idea of the text?

### READING SECTION:

#### Earth's Travel

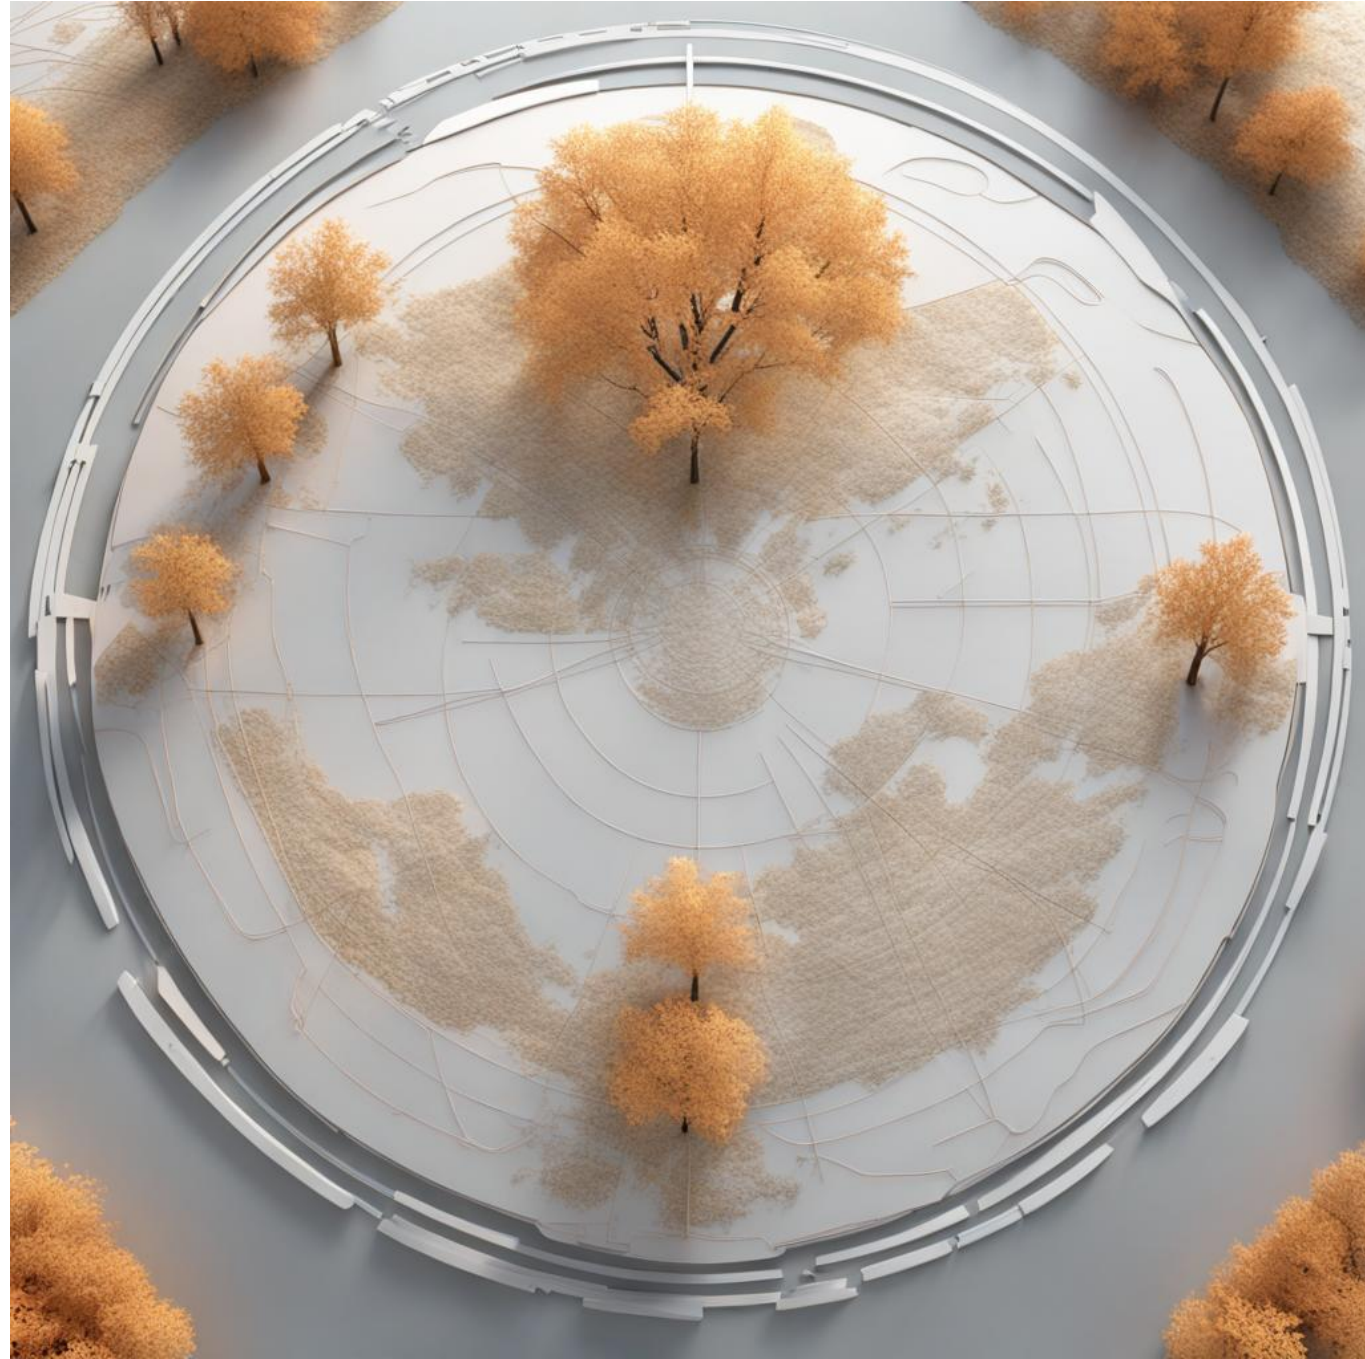

We have four seasons: spring, summer, fall, and winter. But do you know why? The Earth doesn't stand upright. It leans a little bit. The Earth goes around the Sun. It takes about a year. When the Earth travels, we have more or less. It depends on where we live. When a part of the Earth leans toward the Sun, it's summer. It is hot and sunny in summer. When it leans away, it's winter. It is cold and snowy in winter. When it's in between, we have spring and fall. So, where do you live? What season are you in now?

5 Vocabulary Key  
Words: leans,  
travels, sunlight,  
receive, toward.
