#### A World Heritage Adventure

Yosemite National Park is a special place located in **central** California, USA. It's a UNESCO World Heritage site, which means it's really important to both nature and culture. Long ago, people like Galen Clark and John Muir worked hard to **protect** this amazing place. Thanks to them and a law signed by President Lincoln, Yosemite became a protected area in 1864.

This park is **famous** for many reasons. It has tall **cliffs** and amazing waterfalls that people love to take pictures of. It's also a home to lots of different plants- over 1,400 types! This makes the park's nature rich and beautiful. People from many different places come to Yosemite to do fun activities like **hiking**, camping, and fishing.

There are jobs here, too. **Local** people work in hotels and shops, helping the visitors enjoy their time. But you'll find that most visitors spend their time in a part called Yosemite Valley. This small area makes Yosemite special - both nature and history. Going to Yosemite isn't just about seeing cool things; it's an adventure that makes you feel different in a good way.
